## **Brainpop kinetic energy worksheet answers pdf worksheet**

This resource provides a fill in the blank question page for both the potential, and kinetic energy videos on Brain pop. Standards Use evidence to construct an explanation relating the speed of an object to the energy of that object. Assessment does not include quantitative measures of changes in the speed of an object or on any precise or quantitative definition of energy. Kinetic and potential energy are the two types of energy that relate to: Answer: D Which of these has the most potential energy? Answer: C What is potential energy? Answer: A Answer: B Which passenger has the most potential energy? Answer: D The amount of kinetic energy an object has depends on its: Answer: C Which of the following has the most kinetic energy? Answer: B When is kinetic energy transferred from object to object? Answer: D In a generator, kinetic energy is transformed into: Answer: C There is a finite amount of energy in the universe. What does this mean? Answer: B
